There is a Federal Tax on All Out-of-Town Calls.

Call "Long Distance" for Toll Service or Additional Information.

CONSERVE TELEPHONE DIRECTORIES

Only a sufficient number of copies of this directory to fill essential needs has been printed. The use of paper for telephone directories has been curtailed by the Indiana Bell Telephone Company in accordance with a request from the War Production Board.

PLEASE—

1. Ask for only as many copies as you actually require. If you have several extension telephones, you may find that each directory can serve more than one telephone.
2. Take your directory with you, if you move to another address in this city.
3. Safeguard your directory from damage or loss.

Helpful Information

OBTAIN THE CORRECT NUMBER

Please obtain the telephone number from the current issue of the telephone directory. For new numbers not yet listed, call Information.

FEDERAL TAX APPLICABLE TO LOCAL SERVICE AND EQUIPMENT

The following outlines briefly the taxes applicable to local service and equipment.

Fifteen per cent of the monthly charges for Local Service and Equipment.

Fifteen per cent of the Guarantee for Coin Telephone Service.

Service Connection, Move, Substitution, Installation Charges, etc., are not taxable.

IDENTIFICATION OF EMPLOYEES

Employees whose duties require admittance to subscriber's premises to inspect, repair, or remove the Company's apparatus or facilities are provided with a photographic identification card. This card shows the employee's name, signature and his photograph, and is countersigned by a department manager. Subscribers are earnestly requested to refuse admittance to their premises, for telephone purposes, to any one who cannot furnish this means of identification.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company. The telegraph charges will appear on your monthly telephone bill.

You may also telephone your telegrams from public and semi-public coin box telephones and deposit the charges for such messages in the coin box.

Long Distance Service

STATION TO STATION CALLS
(From One Telephone to Another)

A station to station call is one on which you will talk with anyone who answers the telephone in the distant place.

The charge for a station to station call begins when the called telephone or private switchboard answers.

To place a station to station call, give the operator —

FIRST — The name of the distant place.

SECOND—The telephone number wanted (if known), otherwise, the name and address of the telephone wanted. For example: Any one at John Doe's Residence, 425 Main Street.

THIRD — Your own number when the operator asks for it.

PERSON TO PERSON CALLS
(From One Person to Another)

A person to person call is one on which you want to talk with a particular person; or with a particular department reached through a private switchboard; or with a hotel room.

The charge is slightly more than on a station to station call and begins when you reach the person, extension telephone or department you want.

To place a person to person call, give the operator —

FIRST — The name of the distant place.

SECOND—The person or department wanted and also the telephone number and extension number if you know them. If you do not know the telephone number, give name and address under which it is listed. For example: Mr. John Doe at his residence or Mr. John Doe at Read's Department Store, 425 Main Street.

THIRD — Your own telephone number when the operator asks for it.

COLLECT CALLS

If the charges on the call you are placing are to be paid at the distant telephone, tell the operator when filing the call that it is a "collect" call. The charges, if accepted at the distant telephone, will be billed to that telephone.

ON PARTY LINES

Remember the Golden Rule.
Try to avoid unnecessarily
long telephone conversations.

RESEARCH

Telephone service is what it is today because engineers have never stopped working to learn more about speech and hearing. In the Bell Telephone Laboratories hundreds of scientists engage in constant research. The results? You can talk more easily and be heard more clearly over the telephone today than ever before because of these men of science. This telephone company, as a member of the Bell System, passes on to its subscribers the better service possible.
